

# VISITATION GUIDANCE FOR MASSACHUSETTS

- Residents may have up to 2 visitors at a time, per resident.
- Visiting can be up to 45 minutes long.
- Please, do not bring food or beverages to the visit, as masks must remain on at all times.
- Visitors are required to wear a mask that covers your nose and mouth.
- Visitors must sanitize hands, fill out COVID exposure questionnaire and sign the one-time document acknowledging that you will follow the visiting guidelines.
- The receptionist will take your temperature.
- Go directly to our designated visiting area. Please do not stop at the nurses' station, other offices, etc.
- Outdoor visits are still preferred, even if resident and family are vaccinated
- Compassionate care visits are always available

- Resident Room Visits may occur under the following conditions:
  - If YOU are fully vaccinated\*\*\*, and
  - Your loved one has a private room and is fully vaccinated,
  - If your loved one has a roommate who is also fully vaccinated,
  - If your loved one or their roommate is NOT fully vaccinated, then you will need to meet in the designated visiting area.

- All visitors and residents must wear a facemask that fully covers your nose and mouth, and it must remain in place throughout the entire visit; you must perform hand hygiene prior to approaching the visit area.
- Please maintain social distancing during the visit. Continue to practice social distancing with our staff and any others you may encounter. This is for indoor and outdoor visitation as not everyone is fully vaccinated.
- A resident that is fully vaccinated\*\*\* can choose to have close contact (including touch) with their visitor while wearing a well-fitting face mask and performing hand-hygiene before and after, regardless of visitor vaccination status
- A staff member will be on hand to answer questions, assist during the visit, and sanitize in between visits.

\*\*\*Fully vaccinated is defined as two weeks post receiving BOTH of vaccine doses.
